

ACJ319

Ultra-Long Range

AVAILABLE FOR CHARTER

FLY FURTHER IN COMFORT & STYLE

 **4 ZONES**
19 Passengers

The ACJ319 gives you the ultimate in performance, comfort and safety.

This aircraft offers unique levels of comfort, space and range for its class, making it an unrivalled and unforgettable flight experience. With up to 12.5 hours endurance capability, this aircraft is a great choice for ultra-long-range flights.

The luxury styling of each of the four cabin zones provides the perfect light and airy spaces to work whilst on board, or, simply kick-back and relax while you experience the exquisite and renowned cabin service and in-flight catering. Either way, you're sure to arrive at your destination refreshed, and good to go.

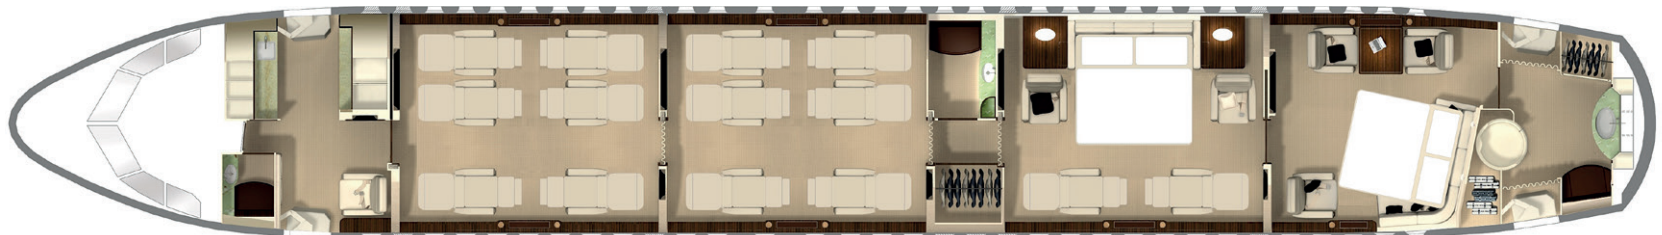

The design layout offers a fully private master bedroom in the rear with a corner divan that converts into a large double bed, en suite bathroom with walk-in shower as well as a large TV. Plus, the forward lounge can also be set up as second full-scale bedroom with a large double bed for another great night's sleep. On night flights the whole interior may be reconfigured with full lie-flat beds for up to 18 passengers ensuring full relaxation for everyone.

A low cabin noise level, reduced cabin altitude and an air humidification system will all help you feel safe and at home during your flight. The in-flight entertainment system and high-speed Wi-Fi for smooth video streaming and video calls means that you can stay connected and entertained during the flight.
